Project Name: Smart Lender; Applicant Credibility Prediction for Loan Approval	Maximum Marks: 2 Marks

SCALABILITY & FUTURE PLAN TEMPLATE

Scalability & Future Architecture Roadmap

S.No	Roadmap Category	Proposed Future Enhancements	Scalability Impact
1	Data Integration	Integrate automated APIs to query CIBIL score details from national registries.	Bypasses manual entry and enhances verification.
2	Modeling Depth	Build SHAP / LIME explanation modules to output color-coded feature contribution charts.	Provides transparent, explainable AI explanations for rejection.
3	Inference Batching	Expose bulk upload endpoint parsing CSV list files for parallel processing.	Supports high-volume commercial batch evaluations.
